Notes for Parallel Sessions

- For the session 'Discussion of Papers and Research Projects' (Friday 9th August - Sunday 11th August, 2019, final session of the workshop each day) you have to prepare a report about your research project. Alternatively you can use the paper that you are presenting to the conference. This report should end with three challenges you face for the completion of your doctoral study. The main body of text should be no longer than 5000 words (excluding abstract/summary, references, tables and figures). You should send this report to the Chair of the Committee Doctoral Training and Early Career Researchers Programme: Dr Rob Dekkers (rob.dekkers@glasgow.ac.uk). Deadline: 22nd July 2019.
- For the session 'Discussion of Papers and Research Projects' (Friday 9th August - Sunday 11th August, 2019, 2019, final session of the workshop each day) you have to prepare a Powerpoint presentation of 10'. This presentation should cover your research project for the doctoral study but not necessarily the contents of the paper you are presenting during the conference. Each presentation will be discussed by one discussant, followed by a discussion led by a board member of the International Foundation of Production Research. The discussants will receive the papers in advance so that they can prepare their commentary.
- To each report a discussant will be assigned. In the role of discussant you need to prepare a Powerpoint presentation of max. 15' with constructive comments about the report and the challenges mentioned in the report. Each participant will discuss only once the research project of another participant.
